

Fulufhelo Endy Mohlola

Full Stack Software Developer

0714298172 | deandie17@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated full stack software developer with hands-on experience in web and mobile application development. Completed a full stack internship at InvestHood IT, contributing across frontend, backend, and DevOps workflows. Proficient in React, PHP, JavaScript, MySQL, and Android (Java/Kotlin). Comfortable working in Agile team environments and building scalable, user-focused solutions.

EXPERIENCE

InvestHood IT — Full Stack Developer Intern | June 2025 – July 2026

Pretoria, South Africa

- Worked as the primary backend developer, designing and maintaining PHP-based REST APIs consumed by the frontend team.
- Built and maintained a real-time meeting platform with chat, reactions, and code-sharing features using HTML, CSS, JavaScript, and PHP.
- Developed ShareZone, a secure internal file-sharing system that improved team collaboration and document management.
- Implemented PHPMailer for transactional email functionality, including notifications and user onboarding flows.
- Integrated Google APIs including Google Calendar for scheduling and event management features.
- Built a user tracking system on the backend that monitored the number of hours users spent in the system.
- Managed version control using Git/GitHub — maintained branches, handled pull requests, and resolved merge conflicts in a collaborative team environment.
- Managed and queried MySQL databases via phpMyAdmin; designed schemas and optimised queries for performance.
- Contributed to a console-based live tracking tool as part of internal DevOps tooling.
- Participated in Agile sprint cycles including planning, daily standups, code reviews, and retrospectives.
- Gained full stack exposure across React (frontend), PHP (backend), JavaScript, HTML/CSS, MySQL, and GitHub workflows.

Dial a StockTaker — Stocktaking Assistant | March 2022 – Present

- Conducted accurate stock counts and verification for retail clients, maintaining high inventory accuracy.

EDUCATION

Rosebank College | 2022

Diploma in Information Technology — Software Development

Spartan High School | 2021

National Senior Certificate (Matric)

TECHNICAL SKILLS

Languages: Java, Kotlin, C#, JavaScript, PHP, SQL, Python (basic)

Web: React (Vite), HTML, CSS, PHP, REST APIs, PHPMailer, ASP.NET, Authentication, CRUD

Mobile: Android (Java/Kotlin), Android Studio, Firebase, Mapbox SDK

Databases: MySQL, phpMyAdmin, Firebase, Azure

APIs & Integrations: Google Calendar API, Google APIs, REST, Postman

Tools: Git, GitHub, Azure DevOps, VS Code, Android Studio, phpMyAdmin

PROJECTS

CV Reviewer

AI-powered ATS scanner built with HTML, JavaScript, and CSS. Uploads a CV, returns a score out of 100, ATS optimisation status, and actionable recommendations.

jitaShop Marketplace

High-scale e-commerce platform built with React (Vite). Features vendor authentication, real-time inventory management, secure payments, and community-focused shopping for local vendors.

Farm Alert (Group Project)

Web app for farmers to monitor farm performance metrics, manage responsibilities, and request financial support. Built with HTML, CSS, C#, and JavaScript.

Birdwatching Map App

Android app using Mapbox SDK for marking bird sightings, interactive maps, and real-time location tracking.

MathQuiz App

Kotlin/Java Android app for interactive math quizzes with timers, scoring, and multiple difficulty levels.

CERTIFICATIONS & ACHIEVEMENTS

- Certificate in Stock Taking
- Coursera: Build a Free Website with WordPress
- Certificate of Participation — AI and Data Science Bootcamp (ThinkCloudly)
